MID-ATLANTIC CATTLE SALES

A family owned and operated livestock video auction

Marcus 704-322-0840 • Brooke 704-322-9770

Video Sale INFORMATION

Video sales are a marketing mechanism that have grown in popularity due to the opportunities they present to producers who deal in large numbers of stocker and feeder cattle. Cattle are generally marketed in trailer-load lots weighing approximately 48,500 pounds; however, we can also sell "partial loads" if there are not enough cattle to make a full trailer-load. Before the sale, a representative from MACS goes to the farm to record video of the cattle while also documenting important information about the cattle including breed, frame, muscling, and fleshing as well as health and nutrition programs. *The following catalog provides this information from our consignors and contractors to assist with marketing the consigned cattle. If you have any questions regarding the stated information, please contact a MACS representative listed throughout this catalog.*

Upcoming Bull & Female Sales

\$Profit is making a big difference in our cow herd.

We are putting less feed into the cows and getting better production. The entire calf crop graded 93% Choice and over 50% CAB and higher. Out of our first calvers, 100% graded choice or higher. That's progress!
