Video Sale INFORMATION

Video sales are a marketing mechanism that have grown in popularity due to the opportunities they present to producers who deal in large numbers of stocker and feeder cattle. Cattle are generally marketed in trailer-load lots weighing approximately 48,500 pounds; however, we can also sell "partial loads" if there are not enough cattle to make a full trailer-load. Before the sale, a representative from MACS goes to the farm to record video of the cattle while also documenting important information about the cattle including breed, frame, muscling, and fleshing as well as health and nutrition programs. *The following catalog provides this information from our consignors and contractors to assist with marketing the consigned cattle. If you have any questions regarding the stated information, please contact a MACS representative listed throughout this catalog.*

LOTS 9389 & 9390 - Sheek Farms - Harold Sheek*Home-Raised, All-Natural, GAP-4 Certified, BQA Certified*

Two excellent loads of calves from Mr. Harold Sheek. They are predominantly Angus based, sired by mainly Angus bulls with the bloodlines of Weigh Up, Upshot, KCF Bennett Y75, and Nichols. Calves may carry 1/4 Simmental or less. All cows were also bred on Mr. Sheek's farm. About 100 calves have been weaned 45+ days coming off the first-calf heifers and young cows and most of these calves will be on the split load. The loads need to go out the same day. The non-weaned cattle will be on the momma cow until that morning. A fancy set of reputational cattle ready to go in June. **170 head to sort out two loads.**
