Flesh: Medium

Muscling: 90% #1, 10% #1.5

Frame: Medium

Nutrition: Since weaning are being fed a weaning ration with free choice mineral and hay.

Vaccinations: Pyramid 5 + Presponse (1x), Express 5 (1x), Cavalry 9 (2x)

Dewormer: Eprinex (1x), Synanthic white dewormer (1x) **Implants:** None

Genetics: Angus-based. Sired by performance tested Angus bulls and out of Angus-based cows.

Natural Status: Seller Affidavit

Comments: A home-raised set of steers that have excellent genetics and growth bred into them. They have been weaned for 3 weeks and have already had two rounds of vaccinations. All vaccinations and handling have been according to BQA guidelines. These are 100% blk/bwf and high percentage Angus cattle that will work great to go to grazing. They are docile. These are reputational, northern-type feeding calves that we need to load this week or early next week.
